Art Unit: 3729

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1 and 13.2.

Because these inventions are distinct for the reasons given above, restriction for examination purposes as indicated is proper.

3. A telephone call was made to the office of Michael E. Fogarty (202-756-8000) on December 13th 2002 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
